BRIEF CITY NEWS

From California—M. J. Perry, of Pescadero, Cal., is in the city on business relative to extensive property interests he has here. He will probably remain in town for a couple of more weeks.

Lecture Tonight—Prof. Douglas will lecture tonight at the entertainment to be given by the Camera Club at the Gymnasium. While the lecture will be the foremost feature of the occasion, a number of very interesting views will be presented by the Camera Club.

Alleged Hold Up—A man who withheld his name reported yesterday that he had been held up and robbed of \$18 by Mexicans opposite the slag dump on Monday night. Later he told a different story, arousing doubt as to whether anything of the sort had occurred.

Home From Tombstone—Stenographer Wood, Attorney Williams and Constable Doyle are home from Tombstone, where they were summoned to appear before the grand jury in the Chavez murder case. The grand jury has now heard all the facts regarding the murder, and has probably arrived at its final conclusion regarding it.

Circus Coined Money—The E. P. & S. W. brought the Mexican circus out from Cananea yesterday which had been showing along the border for some weeks. At Cananea the show gave nineteen performances at which the receipts averaged \$3,000 in gold for each performance. The show went yesterday to Nogales; from there it goes to Hermosillo and on through Mexico.

Johnson-Prentiss Cases—Officer Williams and J. M. Johnson returned yesterday from Tombstone, where they were before the grand jury with others in regard to the Johnson-Prentiss trouble in this city. The Johnson-Prentiss case sent to the jury from Douglas are also said to have been taken up. The jury is working with rapidity and fast getting through the new cases it has before it for consideration.

Mind Believed Affected—The man who was stabbed beneath the ear at the city jail Sunday morning is believed to have suffered injury affecting his brain. After his wound was dressed Sunday he was given his freedom, and has since been wandering about the city in a dazed condition. Last night he approached officers with the declaration that he had left \$500 at a saloon to be taken care of, and that when he asked for the money he was kicked out of the place. He could not give its name or location.

Much Baggage—Traffic into the city this week has been a surprise to all hands on the E. P. & S. W. interested in that department of its business. The evening trains have alone averaged 80 pieces of baggage, and the baggage rooms are piled with trunks. Baggage Master Smith was in a quandary last night to explain the rush, unless it was due to unusually early holiday travel. The passengers coming in are from every part of the country, according to the story of the baggage checks.

Arouses Suspicion—What does the Santa Fe Railroad want with land in this vicinity, is the latest query to the front among people watching the development of the section and suspiciously in keen touch with movements that are on tap. The query mentioned arises from the fact that Resident Attorney Jones of the Santa Fe Pacific has filed lien land script on two sections south and west of Don Luis. The Santa Fe is building up the Gila to Benson. Beyond that point it has not been known to have plans extending this way.

Intended Robbery—A white man wearing a gold watch and probably saved from assault and robbery early yesterday morning by Officer White. The latter saw four Mexicans start down the Lowell road with the man, come under the influence of liquor, between them. The officer followed, expecting to catch the Mexicans at the proper moment, but was seen and recognized by one of the number, who tipped the danger off to his companions and fled with them, leaving the white man behind. He said the Mexicans had invited him to go with them for a drink.

Another Bull Fight—The E. P. & S. W. yesterday announced that it would run a special train out of this city Sunday for a bull fight to be given that day at Naco. The train will leave here at 1:30 in the afternoon. Return will be made from Naco at 5 p. m., the train reaching this city at 5:40. The fare for the round trip will be 20 cents.

Hurt in Accident—A Mexican was brought to the city early yesterday morning from the grading camp of the contractors building the L. S. & P. spur. The man was minus four toes and had a bad scalp wound. The accumulation of injuries was gathered through the premature explosion of a blast. It gave rise to a rumor that two men had been killed. The Mexican was alone injured.

Tax Collections—Marshal Snodgrass reports that tax collections are coming in readily, though not as briskly as might be desired. The limit on time for payments is the third Monday in December. From that date until March, taxes collected will have a 5 per cent fine attached. All taxes not paid by March will send the property involved to the delinquent list for sale.

Have Kick Coming—Bisbee sent a dozen or more witnesses to Tombstone yesterday on subpoenas issued for their appearance before the court and grand jury. All of the number had much complaint to make because of the summonses they had received. Most of them, particularly the officers called, said they were being put to trouble and expense that ought not to have been inflicted, inasmuch as they know nothing whatever concerning the cases they were called to testify in.

Naco Fight—E. S. Kelly and Harry Norman, both of El Paso, were in the city yesterday looking after advertisement of the bull fight to be brought off at Naco Sunday. The show will be by the same band of fighters who gave such a highly pleasing exhibition at Douglas last Sunday. Mr. Kelly has had the management of the tour. For the Naco fight a special train will leave this city Sunday at 1:30 p. m., returning on the time of the regular evening train from Naco which reaches here at 5:40. The fare for the round trip will be 50 cents, and there is reason to believe that an immense crowd will go down from this city.

Bolted With Money—A female merchant named Nelson appealed to the police last night in a state of great excitement for the arrest of a man whom he alleged had stolen a \$20 gold piece from him in a saloon. The man was found later by Officer Jack White and locked up. Still later Nelson changed his mind about prosecuting the man, and he was released. According to the first story told by Nelson, he drew the gold piece from his pocket in a crowd and told that his son had found it. The money was passed from hand to hand for inspection, until it reached the man who bolted through a back door with it. Upon the departure of this individual Nelson waxed so exceedingly angry that he came near being arrested himself for threatening to kill the big end of the population of the town.

Gambler Arrested—Dick Donovan, a Douglas gambler, was arrested here Monday night on telegraphic instructions received by Marshal Snodgrass from Douglas. Officer Coffey came up from Douglas yesterday and took Donovan back to that town. He said the offense charged against the man was boating the gambling house for which he had been working. Donovan evidently expected arrest when he arrived here. With a party of traveling men he headed straight from the train for the Copper Queen, where he loitered around for some time without registering. When he left the hotel he started on a rambling tour about the town, and the Marshal, who had been watching his movements, concluded that if he was going to keep track of him for the Douglas officials he had better make an arrest, which he did.

Stabbing Affray—Jose Galvez was stabbed by another Mexican yesterday afternoon near the E. P. & S. W. depot. Galvez sustained a deep cut on the arm and a severe wound in the stomach. He walked away from the scene of the trouble and got as far as the bank corner before he collapsed on the sidewalk in the act of rolling a cigarette. Later he was taken to a surgeon's office and stitched together, following which he was able to walk home. The man who did the stabbing refused to give his name. The latter is not known to Galvez. He was with the fellow during the morning. Shortly before the cutting occurred he bought a jar of wine and passed it to his companion. The latter refused to return it, and Galvez attempted to take it. The knife then came into

play. The wielder was arrested shortly after the stabbing and lodged in jail.

GOOD READING.

To the ordinary person a blacksmith shop holds little interest. But there are shops and other shops. The E. B. Mason blacksmith shop at Lowell is the most modern institution of its kind in this part of the Territory. An electric Buffalo blower makes the sparks fly from two forges. A shoeing rack, a late appliance, makes shoeing of bronchos and fractious horses as easy as shoeing old Dobbin, the family horse.

In the vehicle department is a rubber tire machine of the latest pattern. A boring machine for hubs, an immense stock of wheels, from the heavy wagon wheel to the light buggy wheel, and material and jewelry for repair work covering everything necessary for the repairing of any kind of broken or missing part in almost any vehicle. Another feature, just a telephone message to 60 or 24, and a man will call for your buggy or wagon if broken, or your horse if he needs shoeing, and will return it to you promptly. There's nothing too large or too small for us to call for.
